

Environmental labelling of packaging D. Lgs n. 116/2020

From 2023, the mandatory environmental labelling of packaging and Graf Industries has adapted to this obligation introduced by Legislative Decree 116 of 3 September 2020 implementing the European Union Directive 2018/851 on waste and the EU Directive 2018/852 on packaging and packaging waste.

Legislative Decree no. 116 establishes the obligation for manufacturers to indicate the nature of packaging materials on all types of packaging (primary, secondary and tertiary) for identification and classification purposes, in accordance with Commission Decision 97/129/EC.

Typology		Material	Classification	
		Bags	Polyethylene terephthalate	PET1 
		White bags	High density polyethylene	HDPE2 
		Bottles	Polyvinyl chloride	PVC3 
		Stretch film, bubble wrap, maritime film.	Low density polyethylene	LDPE4 
		Packaging strap	Polypropylene	PP5 
		Filler material	Polystyrene	PS6 
		Corrugated cardboard	Cardboard	PAP20 
		Non-corrugated cardboard	Cardboard	PAP21 
		Paper	Paper	PAP22 
		Wooden box	Wood	FOR51 
		Wooden box HT	Wood	FOR51 
		Pallet	Wood	FOR50
